ALBANY SCHOOLS SMASH RECORDS FOR ENROLLMENT

MORE THAN ONE THOUSAND
CHILDREN TAKE UP SCHOOL
WORK.

The Albany public schools enjoyed the most auspicious opening in their history this morning when over a thousand pupils presented themselves for admission. While not all of these pupils have enrolled as yet, they will probably do so by not later than Wednesday of this week, and prospects for a successful year are unusually bright, according to Supt. Ralph W. Cowart.

The enrollment by wards follows: High school, 232; South Albany, Second ward, 229; East Albany, Third ward, 68; West Albany, First ward, 104; Gordon school, 406; total, 1039. The enrollment last year was 950. On October 1, when the compulsory school law becomes effective it is expected that the enrollment will be augmented by several hundred.

The opening this morning was attended by formal exercises. Rev. J. C. Persinger opened the chapel exercises with prayer, following which B. L. Malone of the city board of education, delivered a short and appropriate address. Prof. R. W. Kimbrough, principal of the high school, welcomed the students and outlined the year's work. The singing of national airs by the student body completed the program.

NO U-BOAT WAS IN THE ATLANTIC

NERVOUS WIRELESS OPERATOR
PROBABLY GOT TWO MES-
SAGES MIXED.

(International News Service.)
Washington, Sept. 17.—Many marine observers along the Atlantic coast today still were looking for the "submarine which shelled a steamer off Nantucket," Saturday morning.

Navy officials here expressed the belief that they will have a long wait before their quest is successful. The facts are, officials say, there was no U-boat at the point reported. So far as the navy knows there was no such craft on this side the Atlantic ocean.

Complete search of all the waters of the Massachusetts and Long Island coast has failed to reveal trace of any hostile craft. Naval wireless experts say probably that two or more messages got mixed in transmission. It is known here that American warships were at target practice near where the U-boat was reported. It is believed that a message for this reason became mixed with another giving the position of a certain vessel and that a nervous wireless operator did the rest.

JEWISH NEW YEAR IS BEING OBSERVED

Owing to the fact that the Jewish New Year is being observed all of the stores in the Twin Cities operated by Jewish merchants are closed today until 5:30 o'clock in the afternoon, when the celebration ends. The holiday was appropriately observed by the holding of religious services conducted by Milton Elischak, a student of the Hebrew Union College of Cincinnati, whose subject this morning was "Life, An Expression Rather Than A Suppression of Self." Mr. Elischak spoke last night on "Militant Ideals."

This is the year 5678 in the Jewish calendar.

PEACE REPLY TO REACH POPE SOON

(International News Service.)
Zurich, Sept. 17.—The reply of the central powers to the peace note of Pope Benedict will be in the Pontiff's hands within 24 hours, said a dispatch from Rome today.
It was understood that the German answer, which represents the views of Bulgaria and Turkey failed to give any detailed terms. It is believed, however, that the Teutonic note was written with the view to leaving the door open for another communication from the Vatican.

CODRINGTON JOINS THE DAILY STAFF

ADVERTISING EXPERT FROM NEW
YORK CITY NOW WITH THIS
PAPER.

Arthur B. Codrington, late of New York City, where he was in charge of the advertising department of the Hotel Review, arrived here this morning to become a member of the staff of the Albany-Decatur Daily. Mr. Codrington will handle advertising for this newspaper. He is considered an expert in this line, having had a wide and varied experience both in the North and South. Mr. Codrington is especially well known in Florida, where he was connected with the Tallahassee Daily Democrat. The Tropical Sun and the Stuart Messenger as advertising manager at various times. He is a brother of Chris O. Codrington, ex-president of the Florida Press Association and publisher of the daily and weekly News at DeLand, Fla.

Owing to the fact that Mr. Codrington was anxious to again return to Dixie, the Daily was so fortunate as to secure his services. He will be joined in the next few weeks by Mrs. Codrington, who is now in New York City.

Curtis Gover, who has been connected with the Daily as advertising solicitor during the summer months, will leave shortly for Nashville, where he will enter Vanderbilt University. Mr. Gover will remain with the Daily until his departure for the capital city of Tennessee.

FIRST METHODIST REVIVAL CLOSES; PASTOR PREACHES STRONG SERMON

"JUSTIFICATION BY FAITH" WAS
THEME OF DR. STEVENSON AT
FINAL SERVICE OF THE WEEK'S
SERIES.

EARLY CHURCH IS DESCRIBED

TOO MUCH OF METHODS AND ME-
CHANICS IN PRESENT DAY RE-
VIVALS, IS CRITICISM MADE.
CHURCHES ARE FIELDS, NOT
FORCES.

"Justification by Faith," was Dr. H. L. Stevenson's general theme last night at the First Methodist church of Decatur, when he preached the final sermon of a series of revival meetings which were held at his church during last week. At these meetings Dr. Stevenson did the preaching, and the other work of the revival was done by members of the local congregation.

Yesterday morning Dr. Stevenson preached to an attentive congregation on the "Secret of the Power of the Early Christian Church." A notable strong song service preceded the sermon. It was announced that the Decatur public schools would begin their fall term today; that the Decatur library committee would hold a special meeting at the Carnegie library today for the purpose of organizing a co-operative movement to help raise the million dollar fund for a library for the American expeditionary army in France; that Col. C. C. Harris would meet the trustees of the church at the City National Bank today at 4 o'clock, and that in a few weeks the claims of the American Bible society would be presented to the congregation. Also the proximity of the annual Methodist conference was mentioned and the membership reminded of the special tasks to be performed by that time.

Description of Early Church.
In the outset of his sermon, Dr. Stevenson paid a glowing tribute to the power of the early Christians to get results. The speaker declared that with the early Christians one sermon brought 3,000 to Christ, but that now it took about 3,000 sermons to bring one convert to Christ.

"There don't seem to be the ardor and enthusiasm now; we don't seem to be responsive to the Spirit of Pentecost. The early church was always in a state of revival." In a criticism of modern revivals Dr. Stevenson said: "If I might presume to criticize our revivals now, it would be to say that there is in them too much of methods and mechanics, and too little of bowing ourselves to the will of God."

The Sermon in Part.
And the Lord was adding to the church daily, such as were being saved. This version instead of the St. James, which reads, "And the Lord added to the church daily such as should be saved," was the text used.

"Why the church? What its justifications?"

ALEXIEFF, CHIEF OF STAFF, KILLS SELF, DISPATCHES ASSERT

Former Commander-in-Chief of Russian Armies
Reported a Suicide

EMPEROR CHARLES GOES TO THE FRONT

Austrian Ruler Said to Be Trying to Stiffen
Morale of His Panicky Troops

(International News Service.)
Copenhagen, Sept. 17.—Re-organization of the Russian cabinet along republican lines is expected in the next 10 days, according to advices from Petrograd today.

It was reported that Premier Kerensky would formally be proclaimed president pro tem.

Now that Russia has been proclaimed a republic it is believed that a convention will be called soon at Petrograd or Moscow to begin the work of drawing up a constitution.

(International News Service.)
Copenhagen, Sept. 17.—Gen. Alexieff, chief of staff of the Russian army, has committed suicide by shooting himself according to Petrograd dispatches to the Sydzenska Dag Blad today. The shooting took place following an interview which Gen. Alexieff had with Premier Kerensky, the dispatch stated.

It was Gen. Alexieff who went to Gen. Korniloff's headquarters and put the revolutionary leader under arrest last week. Alexieff was formerly commander-in-chief of the Russian army.

(International News Service.)
Washington, Sept. 17.—The Russian republic has emerged from threats of counter revolution stronger than ever before and the entire nation has been unified by the alleged Korniloff rebellion, according to dispatches from Petrograd received at the state department today. Renewed pressure against the Germans on the Riga front may now be expected.

(International News Service.)
London, Sept. 17.—Emperor Charles of Austria has gone to the Treftino front, according to advices from Zurich today. The emperor arrived at Trent on Thursday and began an inspection of the Austro-Hungarian front.

There has been comparatively a lull on the Trentino front, the heavy fighting between Austro-Hungarians and Italians occurring along the Isonzo river and Julian front.

ITALIANS FIGHT BRAVELY AGAINST THE AUSTRIANS

(International News Service.)
Rome, Sept. 17.—An "isolation movement" against the Austro-Hungarian positions on Monte San Daniele is under way along the southern end of the Bainsizza plateau and dispatches from the Italian front today reported further progress in that sector. While part of Gen. Cardona's victorious Italian troops are at work constructing new roads along the mountain side others are dragging the heavy guns up the battle scarred slopes of Monte San Gabriele. Meanwhile, detachments of picked troops are fighting their way eastward along the heights flanking Chiapvano valley to get in the rear of the Austro-Hungarian forces on Monte San Daniele. Prisoners are still flowing back to the Italian rear.

TO PROBE MUTINY.

(International News Service.)
Petrograd, Sept. 17.—Attorney General Shablovsk, the chief prosecutor of the army and navy, has been appointed president of the special convention to investigate the mutiny of Gen. Korniloff and has left for the front.

While Kerensky is working to put his house in order in Petrograd, the armies on the northern front continue their pressure against the Germans, and reports from Riga today stated that the Russians had pushed the Germans back from 4 to 9 miles.

BRITISH INACTIVE.

DUPED IS PLAINT OF MISSIVE.

(International News Service.)

The German foreign office also thanked the Swedish government for its services and expressed regret that the contents of messages from Count Von Luxburg were unknown to the Swedish envoy in Buenos Aires. The note stated that Germany has notified all her representatives abroad that they must not resist in the attempt to force them to reveal to the Swedish government the contents of their code telegrams.

Southern Officers Won't Command Northern Troops

(International News Service.)
Montgomery, Sept. 17.—Two hundred reserve officers recently sent here from Camp Gordon to command the Ohio troops have been ordered by the war department to Alexandria, La., where they will command troops from Arkansas, Alabama and Mississippi. The order came following a protest from Governor Cox of Ohio against southerners being placed in command of Ohio troops.

SWEDEN'S ALABI WILL HARDLY BE ACCEPTED.

After being caught dead to rights, the Swedish government is resorting to the methods of the Berlin foreign office to extricate itself from a predicament due to its pro-German sympathies. The Swedish diplomats, like Herr Zimmermann, believe that the United States is so peculiarly gullible that it will accept any old alibi that will be offered. Working on this premise, they have given out a long and laborious statement in which it is claimed that Stockholm was woefully ignorant of the abuse of its cable facilities by the German minister to Argentina. This plea of ignorance is also a confession of simplicity such as the world has rarely ever known. That Sweden should have given carte blanche in the use of its cable facilities to a foreign office that had pleaded guilty to inciting Mexico against the United States, at that time a neutral nation, is justification for any charge that may be brought against its sapience and its candor.

Scratched deep, it will be found that the real reason why Sweden has shown a disposition to placate America after energetically aiding Germany is that the hefty, robust Swedes have rather overpowering appetites that must be appeased with food from this side the Atlantic. Under circumstances like these, it is easy for Sweden to prevaricate. A hungry man can take many liberties with facts without arousing a seared conscience. It is unlikely that the indiscretions proved against Sweden will involve that nation in the war. It is equally as unlikely that the United States will continue to feed its enemies.

EVERY NEW INDUSTRY MEANS A BIGGER PAYROLL.

Progressive business men of Decatur who went out and landed a hosiery mill that will employ 100 operatives within six months and twice that number later on, displayed most commendable enterprise. They demonstrated that industrial plants can be secured with the proper effort and co-operation, and also that town-building like everything else worth while requires effort and initiative.

The hosiery mill is only a beginning according to some of the liveliest wires of Bank street, who are authority for the statement that any other industry that is looking for a location will find Decatur ready and willing to do its part. Every small or large industry that is brought to either Decatur or Albany adds just that much to a mixed payroll that affects both cities. A growing payroll means development and expansion.

During the past six months a silk mill, a broom works, an overall factory and a hosiery mill have been added to the long list of local industries, and if this good work continues the day is not far distant when the dream of a young metropolis here on the banks of the historic Tennessee will be realized. So far as the Daily is concerned, it doesn't care one rap whether new enterprises are located in Decatur or Albany. The main thing is to get them.

Having proclaimed Russia a republic, Kerensky can now proceed to handle Korniloff after the manner of the old-fashioned autocracy.

Somehow, it would be singularly appropriate should Nashville elect an undertaker as mayor.

The Southern League season closed without upsetting the drift of the war.

The time is ripe for Morgan county to sow a wheat crop.

ROOKIE OFFICERS DON'T LIKE EATS

(International News Service.)
Ft. Oglethorpe, Sept. 17.—Rookie reserve officers are up in arms against the daily eats. Major Crank, who directs the mess, covered himself with glory by reducing the allowance per man to 65 cents a day. Acting on his tip the government cut it further to 60 cents a day, and the rookie officers set up a howl. The officers today entered into a "week in the trenches."

28,000 ON STRIKE AT SHIP YARDS

(International News Service.)
San Francisco, Sept. 17.—Halting work on a \$150,000,000 of ship construction for the navy and the emergency fleet corporation, 28,000 or more men employed in the ship building machinery, foundry and allied industries of the iron trades, went on strike today, demanding higher wages. One hundred and twenty concerns were affected. It is believed the federal government will intervene.

(International News Service.)
Washington, Sept. 17.—The United States shipping board has asked the department of labor to take over all ship building difficulties on the Pacific coast.

(International News Service.)
Seattle, Sept. 17.—Hopes for the settlement of the lumber yard strikes in Washington lies today in a meeting at Tacoma of the state council of defense.

More Army Engineers Wanted By Pershing

(International News Service.)
Washington, Sept. 17.—Every phase of army engineering is to be represented in the American troops that are now or soon will be in France. The army engineer corps, following cable requests from Gen. Pershing, already has organized numerous regiments of engineer troops, and in three training camps speeding up processes in an effort to whip into shape the kind of engineer organizations sought by Gen. Pershing are under way.

McAdoo Appeals To British Capital Not To Withdraw

RULE OF THUMB NAVIGATION

New England Sailors Stick to Sextant and Care Little for New-Fangled Nautical Instruments.

Edward Hungerford, who made an investigation for Everybody's to find out where the men are coming from for our new merchant marine, relates some interesting incidents showing the New England sailors' independence of new-fangled nautical instruments. "Ask them about navigation," he writes, "and they will bring out, with loving care, the sextant that was father's or Uncle Jim's or, more likely, grandfather's or one of the great-uncle's. They will point out the verner scale upon its bright face and say to you—landlubber that you are:

"She shoots the sun. With it we get the latitude. A chart and the latitude—a lead line and judgement—judgement counts—and we can get anywhere between the Bermudas and Greenland?"

"How about the longitude?" you venture.

"You certainly are a landlubber. The salt lets you know that, with a single glance." Then he shows compassion and relates an anecdote:

"There was a fellow sailing out of Gloucester and someone gave him a chronometer—that's the instrument the scientific fellows get the longitude with. They explained it to him, and for three days he sailed by it—God knows where to. Then the dingy thing busts and he comes back to the sextant and gets to the banks only a little behind the rest of the fleet. But if that chronometer hadn't busted, by Judas Priest, stranger, he might have hit over in Portugal somewhere."

PINES FOR OLDTIME ORATORY

Writer Declares That Modern Speakers Fail to Satisfy Our Longing for Language.

What has become of the old-fashioned orator, the old boy who made the well known welkin ring? Modern speakers don't satisfy our longing for language. We remember at least three orators of the old school. One of them, at a funeral oration, spoke of youth and age. Said he: "Springtime's brightest green must fade and pass away to be replaced by drear December's somber hues."

Another, telling of a visit he had made to the place of his birth and boyhood, told of looking into a spring around which he had played as a child. He said: "When last I looked into its unruined beauty I beheld the smiling face of a happy boy crowned with a mass of golden hair. Now I behold a broken old man, halting down the western hill of time, and on his brow there is the snow which no summer's sun can ever melt."

The third of our favorite orators said: "I have seen fragrant flowers in the hands of blushing beauty. I have gazed upon the loveliness of dew-kissed violets rivaling with their modesty the majesty of lilies of the valley. I have seen gorgeous roses lending brilliance to sparkling eyes. But, gentlemen, the most beautiful bouquet that ever burst into bloom before my enraptured eyes was a royal flush."—Dallas Pitchfork.

Secret of Spider's Walk.

The way a spider moves its eight legs in walking is interestingly described by a science authority. In order to observe this movement at his leisure—for it is usually too rapid to be followed by the human eye—he tied the spiders by making them swim and then let them walk slowly over a smooth surface. In this way he discovered: 1. The longest legs, those of the first and fourth pairs, move along lines of their own directions by vertical bending of the joints; the shorter legs of the second and third pairs move forward by rotation from the coxae (the joints connecting legs with the body)—at right angles to their own directions. 2. First near leg moves with third off leg; (a) second near leg moves with third off leg; (b) third near leg moves with second off leg; (c) fourth near leg moves with first off leg; (d). 3. Walking consists of (a) and (c) simultaneously, followed by (b) and (d) simultaneously.

A Good Listener.

The horse is really one of the best listeners in the world. He is always on the alert for sounds which concern or interest him. When he looks at anything he turns his ears towards it to observe the better whether any sound comes from it. If a horse is particularly interested in your driving of him he always turns his ears backward toward you, but if he has no concern on that subject or if he sees anything ahead that interests him, he keeps his ears pricked forward. A horse hears the whinny of another horse at a greater distance than the average man can hear it.—Boston Transcript.

No Clothespins in China.

The American housewife carries around a big bag of clothespins every Monday. The Chinaman twists two clotheslines together and thrusts the corners of the washing between the two strands, where they are held as firmly as clothespin ever held them, says the "Christian Herald." The introduction of clothespins will not help the Chinese, and even such revolutionizing products as the sewing machine, the electric light and the phonograph, which give to Americans leisure, evenings of good reading and grand opera at home, may mean longer hours of toil for the Chinese, or unwholesome pleasures when the work is finished.

"YOUTH."

AT STAR AND DELITE TODAY.
With Carlyle Blackwell and June Elvidge as the stars and with a brilliant cast including Muriel Ostriche and Johnny Hines, the newest World-Picture Brady-Made, bearing the title "Youth," will be shown at the Delite and Star theatres on Monday.

This picture is a thoroughly entertaining, thoroughly pleasing offering. It has been built for entertainment purposes only and it fulfills every purpose for which it has been built. Carlyle Blackwell is splendid in the role of a rich young college chap who is cast out by his father after a particularly hilarious evening and who finally makes his father pleased with him in a manner different from the way in which youths of this character generally "come back." June Elvidge plays the role of the girl in the case and she is a very remarkable girl indeed, being the only doctor in a construction camp on the Tennessee river where a dam is being built. Muriel Ostriche is seen as a charming society queen while Johnny Hines adds a new characterization to his repertoire by enacting the part of a Jap valet.

"My friend, these reformers who censure are honestly striving to improve the morals of the community."

"Maybe so," answered the unregenerate one, "but you don't know how it feels to be held up as a 'horrible example.'"

"Has anybody done that to you?" "Not exactly, but when a pious person looks me over and sorrowfully shakes his head, it amounts to the same thing."

No Harm Done.

"Mrs. Dubwaite recently discovered a package of love letters Mr. Dubwaite wrote some years ago to a blonde."

"As Mrs. Dubwaite is a pronounced brunette, I presume there was the dickens of a row."

"No. The letters were all addressed to Mrs. Dubwaite."

"But—"

"At that time she was a pronounced blonde."

Something New.

"Well! Well! Here's a cooking school where lessons are given with the aid of moving pictures."

"Do the pictures show how to make a pie?"

"Oh, yes."

"Fancy that! Heretofore they have merely shown how quickly a pie may be demolished by coming in contact with a comedian's face."

The Optician's Little Joke.

"What caused the sudden coolness between you and Mr. Gushery?" asked the optician's wife.

"Why, he was telling me that in his dear wife he saw the most accomplished, the most beautiful woman in the world, and I merely asked him to come over and I'd fit him up with a pair of glasses."

A SUBSTITUTE.

Hook—That gay Mr. Flip who stays away from home most of the time is always sending gifts to his wife.

Cook—I wonder why?

Hook—Perhaps he thinks he can make up for his absence by his presents.

Hard Boiled.

He is the tightest yet, by heck, is Henry Arthur Wheelz.

For though he often sees the check he'll very seldom seize it.

Nose Still Keen.

Fussy Old Gentleman (entering optician's shop)—I wish to get a pair of glasses.

Optician—Nose glasses, sir?

F. O. G.—Not at all! My nose does very well, sir. I want them for my eyes.

Help Yourself.

"Would you struggle if I tried to kiss you?"

"What a foolish question!"

"Why foolish?"

"Aren't you an athlete?"

Plainly Put.

"Do you question my veracity, sir?"

"No."

"You'd better not, sir."

"There is no question at all in my mind as to your utter lack of it."

Taking No Chances.

"What have we here? Is some bank moving its money?"

"No. A wealthy citizen bought a peck of potatoes and the police provided an armed guard to escort him to his home."

Nature and Art.

"Do you think art can improve on nature?"

"Yes. A cuckoo clock is no less melodious than a regular cuckoo and is much more manageable."

There Are Others.

"That fellow is like a tack."

"Sharp, eh?"

"No; got a blunt head."

Cardinal Lucien, archbishop of Reims, standing in his ruined cathedral, now but a shell of its former self, waiting for the explosion of some powerful projectile which may cause the collapse of the whole structure. The cardinal has never deserted his post. He is in good spirits and confident of allied victory. His flock has dwindled down to a mere handful. Star Closest to Solar System.

Barnard's "Runaway" Star, as the star of remarkably great proper motion recently discovered in Ophiuchus is called by some astronomers, is probably nearer to the solar system than any other fixed star whose parallax has been measured with the exception of Alpha Centauri. The parallax observations at the Allegheny observatory give a value of 5 second, while from micrometric measures made by Barnard, Russell obtains a value of .70 second. The parallax of Alpha Centauri is .76 second, corresponding to a distance of 4.3 light years. According to determinations made by F. Gonnessat in France, from a comparison of photographs extending back to 1897, the new star is even nearer than Alpha Centauri. He finds its parallax to be approximately one second, representing a distance of only 3.26 light years.

Submarines Strike At "Sweet Tooth"

(International News Service.)

Washington, Sept. 17.—German U-boats have struck a blow at the "sweet tooth" of America. The allies are depending upon America to supply them with sugar, but the usual resources of England which include Java and Mauritius have been largely cut off because of the difficulty in shipping due to the submarine menace. At the same time America must cut down her consumption of sugar if there is to be sufficient to supply both this country and the entente allies.

ARSENAL WORKERS WANT STILL ANOTHER RAISE.

First Methodist Revival Closes

(Continued from Page One.)

"fiction?" inquired the speaker in his first sentence. "The studied statement of the vows of the discipline says that the church exists for the maintenance of Christian fellowship and discipline, for education of believers, and for the conversion of the world. We must assume that all the former purposes as stated are entirely for the purpose of making possible the salvation of the world. The early church so taught and acted. Those Christians' efforts were all directed toward this one supreme end. Such a purpose made the early church a marvel of progress and power in its impact on the world. Wisdom, social standing and financial power were rare in the early believers. Not many wise and not many mighty were called. Christ took men of the average type from the bulk of the common people. History says that He was rejected by the classes of power, but that the common people heard Him gladly. And poverty was so prevalent among them that the early believers pooled all their belongings so as to care for the poorest members. No matter if this procedure did fail and have to be abandoned, it shows us that those Christians looked on the things of others rather than on their own. Their interest and concern was strong enough to band all together and they moved forward shoulder to shoulder and with even step. They continued steadfast in the 'Apostles' doctrine. They didn't say it was impracticable, falacious and suicidal to business. They prayed continually, attended to worship and were instant in alms and sacrifices.

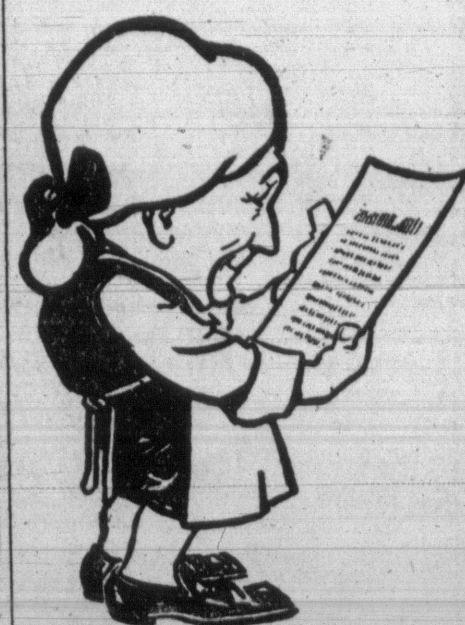

A Saving Force.

"My friends, such a church is a continual saving force. Now churches seem too much fields instead of forces. too much cares and responsibilities instead of militant armies of God. Now when we want a revival it is disheartening that so much time must be frittered away trying to bring Christ's followers to make a definite stand for Him. The super-sensitive and the cold and possibly the spiritually dead have to have too much attention.

"St. Luke in beginning the Acts said that in a former treatise he told of what Christ began to do and to teach. The whole of the acts of Christians should be what Christ through the Holy Spirit is still doing." The speaker pointed out that the present intellectual standing of the leaders of the church, their social standing and wealth should be and could be a great help to the salvation of the world.

"The resources of Southern Methodism count into the hundred millions. We have men of wisdom, able to plan and execute and of world vision. This added asset, which the early church did not have should greatly increase the efficiency of the present-day church. Of course, relatively these additions are somewhat unimportant, but they have real value, if rightly used. And then Christ is the same today as yesterday and is as ready to lead forward as in the early days when the whole Roman empire was converted to the Christian belief. The same God who upheld the martyrs and broke down all opposition to His truth is ready to help us today. Whenever a preacher comes into the pulpit with the dew of heaven on his brow and has the responsive co-operation of his hearers, early church results may be expected."

Rising Sun Lodge, No. 29, A. F. & A. M., is called to meet tomorrow evening (Tuesday), Sept. 18, at 7:30 o'clock, at the K. P. hall, Decatur, for work in the F. C. degree. All Master Masons cordially invited.
